DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation
Washington, DC 20505

LOGGED
12 JUL 1984DCI/ICS-84-4574
10 July 1984

MEMORANDUM FOR: DIA COMIREX Member

SUBJECT: Commendation for [REDACTED]

1. I have noted the recent reassignment of [REDACTED] from DIA DC-5 to the Army Staff, and I would like to recognize the commendable service Bill has provided in support of COMIREX activities over the past two years. (U)

2. Of particular note was Bill's outstanding support to the COMIREX management of the [REDACTED] Program. By his initiative and coordination with other organizations, he improved the courier procedures to deliver [REDACTED] from the overseas operating location to the Washington, D.C. processing facility in a minimum of time. These actions have caused tangible and intangible benefits. The photo lab facilities [REDACTED] personnel are scheduled on a more efficient basis to effect savings in overtime costs, and the timely courier shipments have expedited the flow of derived intelligence to consumers. [REDACTED] is an operational program, the success of which depends on many elements working right--from the weather, aircraft maintenance, communications, film supply etc., to the processing and read-out of photography. Accordingly, various problems are encountered from time to time. When notified, Bill would always be on top of any support problem and would seek the most immediate solutions. If activity extended into the weekend, he would personally monitor the situation to ensure successful initiation of courier and processing activities. [REDACTED]

3. Also, it should be noted that he gave the same outstanding support when during the summer of 1982, [REDACTED]

[REDACTED] Bill's actions were instrumental in providing necessary support to processing, exploitation and reporting needs unique to that operation. [REDACTED]

4. Please express my commendation and gratitude to Bill for his services to COMIREX while at DIA. I know he will continue his outstanding contribution in support of imagery programs as a member of the Army Staff. [REDACTED]
